

Murtal - "It's all in the mix - a vacation between relaxation and acceleration"

In the heart of Styria lies a region that combines apparent opposites in a fascinating way: the Mur Valley. Where else can you enjoy the tranquillity of the mountains on a hike in the morning and experience the racing action at the Red Bull Ring in the afternoon? It is precisely this special mixture of natural idyll and motorsport enthusiasm that makes the Murtal one of Austria's most exciting travel destinations - and gives the region its unmistakable character.

Between stepping on the gas and taking a deep breath

"It's all in the mix" - this motto is not just a slogan here, but a living reality. Because in the Murtal, guests will find exactly what they are looking for: Exercise and tranquillity, speed and serenity, adrenaline and mindfulness. Motorsport fans make the pilgrimage to the Red Bull Ring in Spielberg all year round, where world stars from Formula 1, MotoGP and DTM provide spectacular experiences. The Ring and the surrounding road network also offer unforgettable driving experiences and nostalgic moments in the themed museums for amateur drivers, classic car enthusiasts and motorcycle fans.

At the same time, a world full of nature and originality opens up around the race track. Vast alpine meadows, tranquil forests and well-maintained cycle and hiking trails invite you to switch off, slow down and take a deep breath. Whether on a leisurely e-bike tour along the Mur, hiking up the Zirbitzkogel or forest bathing in the green retreats - the Murtal offers moments of true relaxation.

Diversity as a strength

What makes the Murtal so special is not just the landscape or the infrastructure, but the interplay of many elements: regional cuisine with down-to-earth sophistication, warm hosts and cultural offerings that delight young and old alike. Numerous events, from village concerts to international racing events, as well as family-friendly offers make the region attractive for guests of all ages. Over one hundred excursion destinations from the Museum of Military Aviation to the world's highest planetarium to the mysterious fairytale forest inspire visitors.

For sports and exercise enthusiasts, the Mur Valley with the largest inner-alpine basin in Styria offers a veritable Eldorado of possibilities. 92 peaks over 2000 meters inspire summiteers and a system of bike nodes, unique in Austria, allows passionate cyclists to find their way through the diverse region on two wheels. A growing MTB network offers an action-packed contrast to enjoyable exploratory cycling.

A destination with character

Whether you follow the sound of roaring engines or listen to the silence of the forest - in the Mur Valley, everyone can find what they are looking for. It is precisely this diversity that makes the region so special.

The Murtal impressively proves that vacations don't have to choose between action and relaxation, between sport and tranquillity. Because it's the mix that makes the difference.
