"Griab di"
& welcome to Hochsteiermark...
 ... at the greenest heartbeat of nature

The north-eastern adventure region of Styria presents itself as a wonderful combination of intact nature and idyllic towns. From the Styrian Semmering over the Hochschwab to the Mariazellerland, one dreams of sunny mountain peaks, crystal clear lakes and deep green forests. With or without snow. An offer for all seasons. Mountain experiences and alpine adventures, cycling, hiking or making a pilgrimage, culture and museums, forest bathing and replenishing energy - there is nothing lacking. Combined with culinary delights, a trip to Hochsteiermark will have a lasting effect, even long after you've returned home.

Bruck an der Mur

Bruck an der Mur offers living space in the midst of intact nature. As a transportation hub and business location, the city is a vibrant center of Styria. Bruck is one of the oldest cities in Austria and owes its name affix "an der Mur" to the largest river in Styria. The best view of the enchanting old town can be seen up from the Schlossberg. There are two most famous landmarks to marvel at - the Iron Fountain and the Kornmesserhaus on the main square, which is the second largest inner-city square in Austria.

Kapfenberg is one of the most modern and innovative high-tech cities in Austria. With a high degree of networking between business, educational and research institutions, the municipality and the region ensure constant further development, job security and joie de vivre. Kapfenberg has also been able to gain the reputation of an international sports and training city. On the whole, the city places great value on work-life harmony in an intact environment.

Kapfenberg

Mariazell

Mariazell is all about pilgrimage. The famous basilica is likely the most important pilgrimage site in Austria. On the Mariazeller Bürgeralpe, a variety of attractions can be found. The "Museumstramway" takes guests from Mariazell to Lake Erlauf. Mariazell also holds numerous culinary treasures: the famous honey-gingerbread, the soothing stomach-liqueur and herbal bitters as well as the excellent beer from the oldest home brewery in Styria.

BY THE WAY:

Did you know that the region Hochsteiermark is located only 45 minutes away from Graz, 90 minutes away from Vienna and 45 minutes from the Formula 1 Red Bull Ring Spielberg?

Mürzzuschlag

A small town with romantic squares, numerous sports facilities and a rich cultural offer. The Semmering Railway, UNESCO World Heritage Site, leads along a picturesque route to Mürzzuschlag. The museums, WinterSportMuseum, BrahmsMuseum, SÜDBAHN Museum and kunsthaus muerz present the history and present of the town. Thanks to ski pioneers Toni Schruf and Max Kleinoscheg, Mürzzuschlag is considered the "cradle of winter sports".

A "city with heart" - charming, friendly and innovative. In the lovely old town center many family-owned specialty stores invite you to shop. The landmark is the "Kindberger Zunftbaum", a maypole which is, with a height of around 24 meters, one of the largest of its kind. Kindberg is surrounded by untouched nature which offers relaxation and produces high-quality agricultural products. A charming, gentle mountain landscape with meadows and forests - ideal for cycling and hiking.

Kindberg

Krieglach

Krieglach and Alpl - Peter Rosegger's forest home. A visit to Krieglach without following Peter Rosegger's footsteps is close to impossible. The birthplace and the forest school on the Alpl as well as the Rosegger Museum in Krieglach are dedicated to the life and work of the great Styrian writer.

BY THE WAY:

Did you know that the famous poet Peter Rosegger was born in the region Hochsteiermark?

St. Barbara im Mürztal consists of the districts Mitterdorf, Veitsch and Wartberg. Pilgrims pass through the communities to get to Mariazell. St. Barbara offers wonderful hiking opportunities. The view of the world's largest walkable pilgrim cross on the Veitscher Ölberg accompanies the pilgrims. Further tips are the Lichtenegg castle ruins in Wartberg. The Brunnalm-Hohe Veitsch is a popular destination for the whole family in winter as well as summer.

St. Barbara

Langenwang

The market town of Langenwang is a place with almost one thousand years of history. Excursions to the ruins of Hohenwang - one of the most important medieval fortifications in Styria - or to the 20-hectare floodplain of the Mürz River will delight the whole family. The mountain bike trails on the surrounding mountains are especially attractive for experienced cyclists. Every year around Christmas, young and old hike "in the footsteps" of Peter Rosegger along the well-known Christtagsfreude hike.

With its magnificent alpine pastures and mountains, rustic and modern huts and a varied range of events, Thörl presents itself as the gateway to Hochschwab. St. Ilgen, a classic mountain climber village, invites you to go for a walk or to go on a Hochschwab summit tour. In Etmisli, gourmets feel at home: culinary delights from down-to-earth restaurants as well as "Hauben" award-winning restaurants with regional products, from the specialties of the Hochschwab cheese dairy to authentic freshly caught trout.

Thörl

Nestled in the Mürzer Oberland Nature Park lies the municipality of Neuberg an der Mürz with the districts Altenberg an der Rax, Kapellen and Mürzsteg. Extensive walks, hikes over gentle alpine pastures or summit tours, cycling and mountain biking on perfectly signposted routes - there is a lot to experience here. Neuberg Abbey, a centuries-old Cistercian monastery, with its impressive minster, invites you time and again to top-class events.

Peace, strength, energy, fresh air and beautiful moments, rounded off by culinary diversity, invite you to get to know the idyllic Stanz valley at the foot of the Fischbach Alps. Take your mind off other things while hiking, enjoy peace and quiet and get new insights along the Sonnenweg, a very beautiful themed hiking trail. Cooling off in summer or ice skating in winter is possible at the town's natural pond.

The construction of the Semmering Railway - today a UNESCO World Heritage Site - was the starting point for popular summer holidays known as "Sommerfrische" around 1900. The touristic development of the Stuhleck and thus winter sports began with the ascent of the summit on skis and the establishment of the first ski hut in the Alps on the Stuhleck. Today, the Stuhleck offers unlimited winter sports possibilities.

Mariazeller Bürgeralpe

More than just a mountain. Ride the cable car Bürgeralpe Express directly from Mariazell to an elevation of 1,267 meters.

At the top, the adventure park "Holzknechtland", play area Biberwasser, WakeAlps and Flylina's Wald8erBahn offers games, fun and action. Fresh air whets the appetite. In the mountain inn, you will be spoiled with regional delicacies, while the little ones can let off steam while driving a go-kart. www.buergeralpe.at

Aflenzer Bürgeralm

The alpine plateau at 1,500 m can easily be reached by a double chairlift or via the toll road. Once at the top, visitors can expect a nature adventure playground, a viewing platform and a skywalk. A via ferrata, mountain bike trails as well as a hang-gliding ramp and a paragliding launch site make the hearts of adrenaline junkies beat faster. www.aflenzer-buergeralm.at

A day trip, a long weekend, summer holiday and winter fun: you've come to the right place. Four-poster beds, loving details and gastronomic variety pamper guests at every turn. Alpine huts serve as "base camps" for leisurely hikes and challenging mountain tours up to the Hochschwab summit. Summer visitors enjoy the well-kept hiking trails from the romantic Bründlweg on the Pogusch to the Turnauer Jakobusweg.

Brunnalm – Hohe Veitsch

An excursion destination for families, outdoor enthusiasts, active sportspeople and those in search of peace and quiet.

Pleasure hikers walk from hut to hut along the 5.5 km long panorama trail, whereas mountain enthusiasts climb the summit of the Hohe Veitsch at 1,981 m. Kids can romp around in the new children's area with a large play pond, swings, carousel, sand playground and marble run. For ultimate fun, there are summer tubing tracks, air-cushioned tires and a giant slide. Savour the culinary delights of the region in the restaurant "Die Gams". www.brunnalm-hoheveitsch.at

Mürzer Oberland Nature Park

The only nature park in Hochsteiermark with a colourful program for young and old. Long walks in deep green forests and through wildly romantic river valleys, hikes or mountain tours to the peaks of Rax, Schneealpe and Veitsch, cycling and mountain biking. Together with a multitude of informative themed trails. The annual nature experience program ranges from solving forest puzzles and creating forest artworks to recognizing animal tracks or exploring the world of ants. www.muerzeroberland.at

Local recreation area Bircha

All around the Schwabenbergarena Turnau, you can find a fitness trail, educational trails about forest and birds as well as the Turnau witch's house. Sportspeople awaits the new MTB route which leads to the reservoir of the Schwabenbergarena. www.turnau.gv.at

If you are looking for relaxation, enjoyment, horse riding, cycling or playing golf, come to St. Lorenzen, where there are many special features to discover. The approximately 10 km long Bründlweg on the Pogusch is a popular excursion destination for everyone. Regional refreshment stops, snack stations and ancient huts invite to refreshment for in between. The longest barefoot pond of Austria invites you to cool off.

Aflenz

The market town of Aflenz is located on the southern side of the Hochschwab Mountains and has a favourable climate due to its protected location. In 1920, Aflenz was appointed a climatic health resort, and in 1979, Aflenz received the title "High-altitude health resort". Aflenz is connected to the Bürgeralm by a double chair lift and is therefore the starting point for leisurely family hikes and challenging Hochschwab tours as well as biking, skiing and sledding fun.

Hiking and pilgrimage

Conquer high peaks, enjoy nature & listen to yourself

Surrounded by impressive mountain landscapes and peaks such as the Hochschwab where the most Alpine chamois in Styria gather, the Hohe Veitsch and the Fischbach Alps, Hochsteiermark has a vast variety of unique landscapes to offer. There is nothing lacking whether it's high peaks, green valleys, idyllic alpine pastures or dreamy forests in harmony with fresh alpine air. To pursue one's desire for freedom and inner balance: Learn something new on mountain tours, on themed hiking trails, by joining a herbal hike or simply just forest bathing.

HIKING & PILGRIM PARADISE HOCHSTEIERMARK

What really counts in life? To answer this question, you need to make time for leisure once in a while. The pilgrimage paths in Hochsteiermark are made for this kind of inner contemplation.

First and foremost is the Mariazell Trail 706, whose destination is the basilica in Mariazell, which is the most important pilgrimage church in Austria and one of the most significant in Europe.

Mariazellerweg 706 A & B

leads in two variants 706A & 706B through Hochsteiermark to Mariazell. Either via the Veitsch or the Mürzer Oberland Nature Park.

Via Sacra

Even emperors, kings and popes, but above all millions of ordinary pilgrims have already been on the traditional Via Sacra. For over 800 years, people have mastered the sacred route from Vienna to Mariazell, lined with chapels and churches of artistic and historical significance.

BergZeitReise - the Upper Styrian stages of the hiking trail "From Glacier to Wine"

Join us on a multi-day hike across and high above the Hochsteiermark. Experience the history and stories of one of the most diverse mountain regions in the Alps. Of course, always surrounded by the magnificent mountain landscape of the Hochschwab, the Rax, Schneealm and the Stuhleck, the Mürzer Oberland Nature Park and the forest home of Peter Rosegger - 15 daily stages.

Nine trails are part of the hiking trail:

High up in Hochsteiermark

It's time for the mountain

Where to go? Explore together with the family themed hiking trails, or walk along railway lines steeped in history, idyllic resting places and scenic vantage points along the Semmering Railway Trail. An adrenaline kick awaits those who want to reach the summit. Surefootedness and fitness are essential for alpine tours.

Impressive rock faces, narrow paths and secured climbs are included. Over the "G'hackte" to the Hochschwab, from the Seeberg Saddle to the Aflenzer Staritzen, or a day tour from the Karl-Ludwig-Haus to the Rax ... makes you crave the clear, crisp mountain air.

In the ski areas of Hochsteiermark, time seems to slow down. Away from the busy and hectic slopes, the focus is on enjoyment and nothing else. Personal supervision in the ski schools, safety on the slopes and family-friendly prices are the order of the day here.

Winter pleasures - away from the ski slopes

Untouched winter landscapes, idyllic Christmas markets, a variety of slopes with magic carpets lifts and ski jumping hills, breathtaking winter hikes and ski tours or powdery sledding fun – simply put, you feel like you are on cloud nine.

Ski tours & Snowshoe Hiking

Styria is probably one of the best places to find peace and quiet on a ski tour. In the process, you can discover a "white side of the mountain world" that you would otherwise certainly have missed.

Cross-country skiing

No matter if beginner or professional, old or young, pleasure cross-country skier or casual athletes - every cross-country skier gets their money's worth. More than one hundred kilometres of cross-country trails are at your disposal here, along with a fantastic panorama.

Sledding

If you would rather move away from the ski slopes, the sledding paradise is the right place for you.

Ice skating in nature & ice rink

Ice skating offers fun and variety for young and old. There is something for every taste, whether on the large indoor-ice rinks in Stadthalle Kapfenberg or on frozen lakes.

Ice diving & ice fishing

For those who like it even colder, we go under the ice, where fascinating underwater worlds await. And for those who want to provide their own Christmas feast, head to Lake Erlauf and fish for their meal.

Curling

What would a winter be without traditional curling? For all lovers of curling, there are numerous opportunities in Hochsteiermark to let off steam in the unparalleled age-old tradition. Whether directly at numerous inns, on frozen lakes or community and club squares.

Looking forward to seeing you soon!
