

Z'HERBST – Die goldene Mischung im Murtal

The Murtal Adventure Region extends the summer. With "Z'HERBST"—the Murtal Swiss Stone Pine (Zirbe) Autumn—the region celebrates balmy summer days, activities, morning drinks, and more from mid-September through mid-October. Discover it now!

The season between the middle of September and the middle of October, with its vibrant colors, is a great reason not to put away your hiking boots just yet. On the contrary: Now is the perfect time to enjoy the last rays of sunshine on wonderful hikes through the region. The Murtal also offers the perfect conditions for a bike ride this fall. Thanks to the well-designed network of bike routes, cycling in the Murtal is particularly enjoyable: You can plan your route flexibly, depending on your mood, fitness level, and time—with clear signage, regional highlights, and varied sections of the route.

The Zirbe takes center stage at Z'HERBST—not just as a schnapps, but as a versatile treasure of the region. Whether it's cozy stops featuring regional cuisine like hearty Steirerkäs, fragrant Swiss stone pine products, or special events centered on the Swiss stone pine—Z'HERBST uniquely combines nature, enjoyment, and outdoor activity, true to the motto "sitting together, hiking together, drinking together, and snacking together."

The Z'HERBST hiking tips lead to tranquil lakes, sweeping views, ancient ruins, and colorful riparian forests. Sometimes challenging, sometimes leisurely—each tour reveals a different facet of fall hiking. Z'HERBST isn't a place, but a feeling—it's the golden blend that makes the Murtal special.

You can find all the information about your Z'HERBST experience—including hiking tips, the Zirben menu, events, and participating businesses—at murtal.at/zherbst
